

Asian Society of Abdominal Radiology
Educational Lecture Course 2019
in Vietnam

September 27^{Fri} - 28^{Sat}, 2019

Venue: Bach Mai Hospital Education Center, Hanoi, Vietnam

Welcome to the fourth ASAR Educational Lecture Course (ELC) held in Hanoi, Vietnam. Education is one of the most important duties of ASAR and ASAR carries out this duty by organizing the ELCs annually. Through the past 3 ELCs, ASAR ELC has become well established and recognized in Asian countries. I believe this fourth ELC will be practical, easy to learn, case-based lecture course and it will definitely be rewarding for the participants.

I would like to appreciate Prof. Manabu Minami, Dr. Cher Heng Tan especially for their efforts and also ASAR Executive Council members and the local organizing committee for their cooperation to prepare for a successful ELC of ASAR.

Chang-Hong Liang, M.D.
President of Asian Society of Abdominal Radiology

On behalf of the Organizing Committee of Vietnamese Society of Radiology and Nuclear Medicine, we are delighted to host the fourth ASAR Educational Lecture Course at the Educational Center, Bach Mai Hospital, Hanoi, Viet Nam.

We have the honor to invite 13 internationally renowned radiologists from Asian countries. Their expertise and experience will create a great opportunity for our Vietnamese colleagues and international participants to share advanced techniques in the field of Radiology. We would like to extend our warm welcome and appreciation to all the participants at the ASAR ELC 2019 here in Hanoi.
